### Superintendent's Highlights

Superintendent Jim Garrett had a very full year before his planned retirement. The District's fast growth in student population resulted in a bond levy election for a new elementary school. Much of the 2000-2001 school year was dedicated to the planning, development and promotion of this much needed levy. The levy was unsuccessful, but that only resulted in a stronger determination to meet the needs of the students regardless of the crowded circumstances. Immediate preparation for a new levy election for the fall of 2001-2002 has begun.

The Board, Administrative Team and Teaching Staff dedicated themselves to the revision of the District Policy Manual and many proposed changes are ready for approval by the Board.

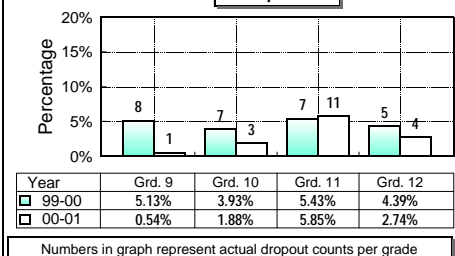

The Board, Mr. Garrett and a team of staff and parents also had the task of finding a suitable replacement for the position of Superintendent. Dr. Richard H. Bauscher was selected for this position.

### Progress Towards Meeting District Goals

#### 2000-01 Goals

#### Progress

Select a well-qualified Superintendent for the position vacated by the current Superintendent.

Goal Accomplished – The District had about a dozen qualified applicants for the Superintendent's position, they selected an applicant who would meet the needs of the District at this time.

Pass a Bond Levy for a new K-5 Elementary building and improvements at three of the existing buildings.

In Progress – The District was unsuccessful at passing the bond; it failed by a very narrow margin. The District immediately started reviewing the process they had followed in the past, and began to plan for a new bond levy election in the fall of 2001.

Revision of the Policy Manual.

In Progress – A committee reviewed the Policy Manual in its entirety. They made several proposals for changes, updates and additions. The Board will review these proposals in the fall of 2001, for final approval.

Improved technology access for Students and Staff.

In Progress – The District's Technology Department made great strides. Students have better access to computers and staff can better assist the students in this part of the education process due to better training. However, as technology is ever changing, this will always be a work in progress.

To serve free breakfast to all students.

The Food Service Supervisor and her staff undertook a new pilot program offer by the State Department. This program allowed them to serve all registered students breakfast without charge and the number of breakfast served has increased dramatically. They plan to continue serving free breakfast to students during the 2001-2002 school year.
